TANNER'S IDEAS.

The Newly Appointed Commissioner of Pensions

FAVORS A LIBERAL TREATMENT OF THE NATION'S DEFENDERS.

It is said Judge Gresham was Promoted the First Vacancy on the Supreme Bench Some Time Ago—General Keifer's Friends Working in His Behalf. National News Notes.

WASHINGTON, March 26.—Corporal Tanner, the newly appointed commissioner of

JAMES TANNER.

pensions, when asked what policy he would pursue in dealing with the affairs of the bureau said: "I can best answer that by quoting one of Gen. Harrison's remarks made during the last campaign. He said: 'Gentlemen, it is no time to use the apothecary's scales when you come to weigh the services of the men who saved this nation.' It seems to me that that is a pretty good motto for all the people of the United States to adopt."

"If I were asked to define my ideas on the pension question in a sentence I should unhesitatingly reply: 'A pension for every surviving soldier who needs one and no soldier's widow, father or mother should be in want.' I am going to take hold of this mighty machine and I am not fool enough to think I have nothing to learn of its workings."

"Are you in favor of an increase in the soldiers' pension?"

"I tell you frankly I am opposed to these \$1, \$2 and \$3 a month pensions. If you are going to give a man anything, give him enough that he may realize he is getting something. If there is an old soldier who has got a claim that you are satisfied is a good one, and he has not quite proved it, my policy is to assist him to secure that proof. You may say that I am opposed to knocking out soldiers' claims, because of a technical short coming."

Judge Matthews' Funeral.

WASHINGTON, March 26.—Funeral services over the remains of the late Justice Stanley Matthews were held at his late residence at 1 o'clock p. m. Rev. Dr. Hamlin, pastor of the Church of the Covenant, assisted by Dr. Leonard, conducted the services. President Harrison and the members of his cabinet, Chief Justice Fuller and the associate justices of the supreme court, a large number of senators and many personal friends and acquaintances of the deceased attended the funeral.

Chief Justice Fuller and his associates on the supreme court bench, acted as honorary pall-bearers. After the services were over the remains were taken to the Baltimore and Ohio depot, and at 3 o'clock the train bearing the remains, members of the family and Justices Fuller, Gray, Blatchford and Lamar, left for Glendale, Judge Matthews' country home near Cincinnati, where funeral services and the interment will take place.

Gresham to Succeed Justice Matthews. WASHINGTON, March 26.—Just before President Harrison left Indianapolis it was learned from an unquestionably reliable source that while in that city trying some cases Judge Gresham spent an evening with President Harrison, that all differences which had existed between the two had been settled and that an understanding had been reached under which Judge Gresham would be tendered the first vacancy on the supreme bench. There is very good authority for the statement that the arrangement made at Indianapolis still stands and that Judge Gresham will succeed the late Justice Matthews.

Keifer for Supreme Judge.

SPRINGFIELD, O., March 26.—The friends of Gen. J. Warren Keifer in this city and Washington are making vigorous efforts to have him appointed associate justice of the supreme court in place of Stanley Matthews, deceased. The movement is said to be backed by John Sherman, Sam Shellabarger, Foster and Gen. Sherman.

Nothing to Do for Over Ten Years. WASHINGTON, March 26.—The cases of Commanders Frederick R. Smith and George W. Wood, of the navy, have been brought to the attention of Secretary Tracy, and it is likely that action of some sort will be taken next week. These officers are borne on the active list of the navy, but have been on waiting orders for the past eight or ten years. During their career in the navy they have been unemployed—some fifteen years three months and the other eleven years and six months. Although Commander Smith stands No. 11 on the list of commanders, he has not seen service since 1876, and Commander Wood was last at sea in July, 1875. The present intention is to shortly order these officers before a board to determine their fitness to perform duty at sea.

One on General Black.

WASHINGTON, March 26.—The Washington Post says: Over at the pension building they are telling this on Gen. Black: Soon after Secretary Noble assumed his duties as secretary of the department of the interior, he made the rounds of the different rooms to familiarize himself with the general outline of the work. In a corridor of the pension office he held some conversation with one of the lady clerks, and while they were talking Gen. Black came along.

"No one must interfere with or delay the work of any employee of this department," said he, in his earnest tones. Evidently he had not recognized the new secretary.

White to Supersede Black.

BALTIMORE, March 26.—The Sun's special from Washington has the following paragraph: Mrs. Harrison is replacing the servants in the White House, substituting white help for the negro servants who have had

control of the domestic machinery there for many years. The colored women in the laundry have been superseded by white women. The cooks in the kitchen are white men. A white butler and waiters will be the next move which will completely revolutionize the household corps.

Minister Grant Sworn In.

WASHINGTON, March 26.—Col. Fred. D. Grant took the oath of office as minister to Austria at the state department. Mr. Henry Bryan administered the oath in the chief clerk's room in the presence of a few department employees.

The Husks En Route to Washington.

MILWAUKEE, Wis., March 26.—Mrs. J. M. Rusk, wife of Secretary Rusk, with her son and daughter, arrived here Sunday night from her old home at Virquata. They will leave for Washington, Wednesday.

POWERFUL ARGUMENTS.

Figures Which Brace Up the Canadian Reciprocity Party.

OTTAWA, Ont., March 26.—The reciprocity party in the house of commons is strongly reinforced by the recent return of statistics showing the trade of the Dominion. To understand the significance of these figures, it is necessary to remember that the main contention of the Liberals in seeking to commit parliament to resolutions favoring closer relations with the United States, is based on the doctrine of failing prosperity under the existing relations with Great Britain and the unsettled political status of the country. The ministerial contention is that under which is called the "National policy," the Dominion is advancing in trades, commerce, wealth and general well being. The returns just published exhibit the exports and imports for the first eight months of the fiscal year up to the end of February. Instead of an increase in exports there is a decrease under all heads, except the products of the mines, only \$10,000 short of \$4,000,000, the increase under the head products of mines being only \$200,000.

The imports, on the other hand, representing the sum total paid out by the country for goods purchased abroad as against home produce sold to foreign countries, show an increase of a trifle short of \$4,500,000. The duties paid on these imports increased \$740,000, which is regarded as about the worst feature of the situation. The country is made to pay increasing taxation on diminishing trade, in other words on an increasing balance against it.

This is about the clearest index to the industrial situation so far afforded by statistics, and goes a long way toward the widespread unrest and discontent represented by the Liberal party in the house of commons, so difficult to prove by other visible evidences.

A DISASTER AT SEA.

The Unfortunate Vessel Supposed to Be the Dominican Steamer Conserva. En Route from Brooklyn to Samana.

NEW YORK, March 26.—The steamer Colorado from Galveston arrived Sunday and reported that Saturday morning, when 80 miles out she sighted a raft, on which was found two dead men, one of whom had probably been an officer, and the other perhaps a fireman of some vessel. The raft bore a small steel plate on which was inscribed "Capt. Jonathan Cone, builder, Wilmington, Del." It was a regular life raft. The men seemed to have died from exposure. The bodies were buried at sea. The Colorado then passed through considerable wreckage.

It is feared that the lost steamer was the Conserva, formerly known as the Madrid, which was fitted here by the Dominican government, and which sailed from Brooklyn last Tuesday, bound nominally for Samana. Her crew, with the exception of the officers, were nearly all West Indians or Malays. She had twenty-seven men aboard, all of whom were picked up hastily in this city, just previous to her departure. The storm of Wednesday may have driven her in the direction of Cape Henry. She carried four life boats and a small steam launch, and if it proves that she was wrecked there is still hope that the majority of her officers and crew got off safely in the boats.

The British steamship Hamborough, which arrived from St. Kitts Sunday, reports having passed on March 22 a steamer with her machinery disabled. A British steamer was standing by the disabled vessel. The latter's hull was painted dark red with a white stripe at the plank sheer. The crew of the Hamborough say the disabled steamer resembled the Clyde line steamer Saginaw, which is now about due here from Samana.

The Relief Strengthened.

NEW YORK, March 26.—A dispatch received from Boston at the Maritime Exchange, tends to strengthen the belief that the wreckage passed by the Mallory line steamship Colorado, of Cape Charles, on Saturday, is from the steamship Conserva. The dispatch states that the steamship Gates City from Savannah, reports that on March 23 at 11:30 a. m., in latitude 38:11, longitude 76:39, she passed one metallic life boat and one lap streak boat, the latter newly painted white. The first three letters of the name on the large boat looked like "C O N."

The Gates City passed also in the same vicinity a sofa and other furniture and joiner work, the latter painted white. The wreckage apparently came from a steamer. It had not been long in the water. At the exchange the belief was quite general that the wreckage was no doubt a part of the Conserva. It is well known that the Conserva must have been caught in the severe storm which swept the Atlantic last week.

Sports Gathering at Louisville.

LOUISVILLE, March 26.—A large number of Chicago and St. Louis sporting men arrived in the city Sunday, attracted by the fight to a finish which is to occur between Jack Gallagher, of Chicago, and Jerry Shuckrow, of Danville, Ill. The fight comes off some day this week, within fifty miles of Louisville. The stakes are \$250 a side, now deposited with the final stakeholder.

All Same Like Mollie's Men.

CHICAGO, March 26.—Charlie Pow, the trusted clerk of Sing Kee, a Clark street Chinese merchant, has disappeared, taking with him all of his employer's savings, about \$1,000. Charlie is supposed to have gone to Canada.

BLOWN TO PIECES.

An Indiana Farmer Buys Dynamite to Blast Stumps,

AND CARELESSLY PUTS IT IN THE OVEN TO THAW.

It Thaws Rather Suddenly and Completely Demolishes His Home—His Wife and Seven-Year-Old Daughter Instantly Killed—The Husband and Father Inseparable with Grief.

LOGANSPORT, Ind., March 26.—A terrific and deadly explosion of dynamite occurred at the home of Aaron B. York, ten miles east of this city, Saturday evening. During the day Mr. York came to Logansport and purchased a supply of dynamite to be used in blasting stumps.

Returning home in the evening he placed the infernal stuff in the oven of the stove on which his wife was cooking supper for the household, which consisted of father, mother and four children. After placing the dynamite in the stove, little dreaming of the terrible consequences of his grossly reckless act he went to the barn to feed his stock, but had scarcely crossed the threshold until he was stunned by the shock of a terrific explosion. Rushing out he found his home in ruins, amid which lay the dead bodies of his wife and one daughter.

Before he had time to fully realize the extent of the awful calamity which had befallen him excited citizens rushed to the scene of the ghastly work, and the picture there presented would touch the hardest heart. Side by side lay the bodies of the wife and mother and 7-year-old daughter, Victoria, bleeding, mangled and dead. Mrs. York's body was mangled beyond all recognition. Her limbs were both torn off below the knee; also completely disembowled and otherwise disfigured, while almost every bone in the little daughter's body was crushed and her flesh horribly disfigured and charred.

Near by lay the apparently dead body of the 17-year-old son, Cornelius, but upon examination it was found that, while his head was badly bruised, life was not extinct, and in about two hours he was restored to consciousness. The little 8-months infant lay in a crib near by unharmed, notwithstanding the fact that the entire end of the crib was blown out. Goldie, the 4-year-old daughter, who was in an adjoining room at the time of the explosion, also miraculously escaped uninjured.

While the excited crowd was investigating the extent of the deadly wreck, York rushed to and fro frantically yelling like a wild man. His condition is but little improved. It is generally conceded that he will become hopelessly insane. Hundreds of citizens visited the scene of the terrible disaster Sunday.

It is rather strange that intelligent persons continue to put this deadly compound in stoves to thaw it, when there is hardly a week passes in which the papers do not chronicle some disaster, in which lives are lost, that has resulted from such gross carelessness.

Gas Well on a Tear.

LANCASTER, O., March 26.—Saturday evening "The Old Man Himself" gas well was released, and lighted for exhibition to two directors of the Central Gas company, of Wheeling, and other visiting manufacturers, and as if resenting further restraint after the temporary liberty, the monster Sunday morning blew away the clamp by which the flow was shut off, and fairly frightened the peaceful city. An unsatisfactory measurement was made of the escaping fluid, but with sufficient accuracy to determine the enormous increase in volume of at least 6,000,000 cubic feet, making the output of the already famous well over 19,000,000 feet. Great curiosity is felt as to what the product of this well might have been if drilling, which was stopped through the fear of inability to control its power, had been continued clear through the gas-bearing rock.

General Gibson for Governor.

COLUMBUS, O., March 26.—Professor C. L. Ryan, secretary of the canal commission, and other friends have inaugurated a boom for Gen. W. H. Gibson for governor. The general took a serious cold while attending the inauguration at Washington and was for a time critically ill, but is now on the road to recovery. The friends of the general feel that he ought to have had the commission of the pension. There is no man in the country who has done longer and more faithful service to the Republican party, and who is more beloved by the people than Gen. "Bill" Gibson.

Mormons Protest.

SALT LAKE CITY, Utah, March 26.—A caucus of Mormon lawyers and their clients was held Sunday to protest against the appointment of Charles S. Zane as chief justice of Utah. The Gentiles favor Zane, while the Mormons are very well satisfied with the nominal sentences pronounced upon their leaders by Chief Justice Sanford.

Philadelphia's Postmaster.

NEW YORK, March 26.—A Tribune special from Philadelphia says: John Field, a member of the notion firm of Young, Smyth, Field & Company, has been asked by Postmaster General Wauanaker to accept the position of postmaster of this city. Mr. Field was a member of the committee of one hundred,

Scarlet Fever Epidemic.

GALLATIN, Mont., March 26.—Scarlet fever has been raging here and at Livingston and other towns in Gallatin county for several weeks. It is in a very malignant form and generally accompanied by severe throat troubles. About sixty deaths are reported up to this time, mostly young children.

Garner to Death in 1874.

NEW YORK, March 26.—A colored woman known as Mrs. Nicholas was buried to death in her bed at her residence, No. 1 Sullivan street. She was an inveterate smoker and it is believed she laid down on the bed to smoke, that she fell asleep and the pipe set the bed clothes afire. The loss to property was trifling.

HARRISON TO BLAINE.

Contents of a Letter Written by the President Before the Inauguration.

NEW YORK, March 26.—The Herald prints a fac-simile of a letter from President Harrison to Mr. Blaine, which it says was carelessly left by Mr. Blaine at a hotel here while he was on his way to Washington. The Herald devotes a column to comments upon the letter, which, it says, is practically a declaration of independence. The letter is as follows:

"INDIANAPOLIS, Feb. 1, 1889.

My Dear Mr. Blaine,

"Your letter of the 21st was received some days ago, and was both in its tone and in its conclusion very gratifying to me. I am sure you have read in the newspapers accounts of my life since—a sufficient excuse for the delay in acknowledging it.

"Yours of the 21st has now been received, and I hasten to thank you for your expressed willingness to relieve Mrs. H. and myself in any way you can.

"As to myself I do not think of any matter in which I can now avail myself of your kindly proffered help. The mail I now use sparingly for several reasons, and as I will be in Washington long enough before the inauguration to enable me to talk fully with you, I will not subject you to the risk of a journey here unless it should be absolutely necessary. If anything should require it, however, I will not hesitate to avail myself of your very friendly offer. I thought I had nearly everything settled in my own mind that required attention before I reached Washington. If the newspaper reports to-day as to Mr. Allison's position are correct it may unsettle some of my plans. I said to a friend to-day that if all seven of the cabinet officers could have been found in Alaska it would have promoted harmony in the party in the states. Maine, I believe, is the only state that has no protest to offer.

"My health is good. I get out twice a day for a walk, a hurried run to be sure, but it gives me air and exercise. You must not forget, yourself, that you will need all your strength. With kind regards to Mrs. Blaine. Very sincerely, yours,

"BENJAMIN HARRISON."

NEWS IN BRIEF.

A Condensation of Interesting Items on Various Subjects.

Natural gas has been discovered near Aitkin, Minn.

Hon. John Scott, the well known railroad man, died at Pittsburg Sunday.

Rev. John Curtis, Methodist, fell dead at the dinner table at New Matamoras, O., Sunday.

Justice Miller, of the United States supreme court, is mentioned for the English mission.

Police raided gambling houses at Findlay Saturday night and captured fifty men and \$3,000 in materials.

The towboat Hope broke her shaft, Saturday, near Vicksburg, sinking several of her barges laden with corn. Loss, \$100,000.

District Judge Woods, of Indiana, is mentioned as a possible successor of Justice Matthews in the United States supreme court.

Julius Long, a Cleveland teamster, and son of a German baron, died in that city in the infirmary, with only his sweetheart, Lizzie Shuler, to hear his last words.

Mrs. R. L. Stewart, dying of consumption at Thomasville, Ga., chartered a special train for \$1,300 and was whirled at fifty miles per hour to her home in New York city to die.

At Newberry, Ark., Saturday night, the boiler in Cooper's sawmill exploded, tearing the building to pieces and fatally injuring John Bakership and John Griffin. Others were badly scolded.

At Caskey, Ky., in a fight between a white section hand named Spy, and a colored section hand named Warfield, the former's skull was crushed and his head terribly bruised by stones thrown by Warfield.

Family of State Senator B. F. Cook, of Massachusetts, residing near Gloucester, have been quite sick of late. Investigation showed that the well on the premises was full of paris green. No clew.

Albert Green, Washington, D. C., murderer, is dissatisfied with the commutation of his death sentence and insists upon a new trial, preferring to risk death for the slight chance of liberty, and wanting to be hanged anyhow rather than serve in the penitentiary for life.

The New York Herald publishes a letter alleged to have been lost by Mr. Blaine, written to him by Gen. Harrison on Feb. 1, which shows that the most cordial relations existed between the two men, and that Blaine had the offer of the state portfolio long ago.

The use of frosted grain for seed in that district of Dakota where the grain was considerably damaged by frost last fall, and which includes nearly all the whole territory north of the Northern Pacific, is causing a good deal of talk and not a little apprehension among grain dealers.

Theophile Schloss, aged 12, and his brother Theodore, aged 18, of Detroit, tried to "get even" with an engineer on the Bay City division of the Michigan Central road, who had squirted water on them, by obstructing the track so as to wreck him and his train. The boys were duly arrested.

In a cave of Bear's mountain, near Cumberland, Md., was found a human skeleton, which proved to be that of John Hotel, inventor of a wonderful clock, who disappeared seven years ago. A bottle of poison indicated that he had suicided. Near by lay an umbrella, a rosary and some silver coins.

Mary Catell and Miss Klingensmith, of Natronia, Pa., accompanied by an unknown man, tried to steal a ride on the rear platform of a Blainesville, Pa., accommodation train. When the conductor came to the door to invite the two inside, Miss Catell jumped from the swiftly moving train and broke her neck.

John Morris did not trust the banks, so he sewed a \$1,200 fortune into his wife's petticoats. At night she pillowed upon the cash and during the day she walked away with it. Finally robbers came—masked men and three. They tied her fast, plugged her mouth and eloped with the \$1,200 petticoat. John was at a neighbor's playing cards, but now he is crazy with grief. This all happened at Wilkesbarre, Pa.

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
 Proprietors.

TUESDAY EVE, MARCH 26, 1889.

COLONEL R. R. ESTILL, widely known in Kentucky and the South, died at Georgetown Saturday, aged eighty-three years.

The Louisville Times' Washington correspondent says the name of the next U. S. Marshal of the Kentucky District will be Major D. J. Borchett, of Lawrence County.

"INDEXER" NOYES is spoken of as a candidate to succeed the late Justice Mathews. If the Republican party can't find an abler and better man for the place the office should be left vacant.

KNOWING ones predict that Mr. E. R. Blaine will be the next Collector of this district, if Colonel Goodloe does not want the office. Mr. Blaine is thoroughly acquainted with the duties of the position.

"CORPORAL" TANNER, the new Commissioner of Pensions, says he's "opposed to these \$1, \$2 and \$3 a month pensions." President Harrison should order the keys of the Treasury turned over to Mr. Tanner forthwith.

THE "cultured folks" don't seem to stand any show with the present Republican administration. President Harrison hasn't given a single one of them an office yet, and the President's wife is firing them all out of the White House kitchen. She prefers white servants.

ONLY two Democratic nominations for the next Legislature have been made—Dr. Mathers to succeed El. Kenton, from Nicholas and Robertson, and N. B. Riley to succeed himself from Todd. But there's no use to be in a rush over the matter, as the election is several months off.

A PROMINENT business man is confident that a shoe factory would pay here in Maysville. He is also confident that one factory would lead to others in a year or so. We believe so too, and that is why we are advocating the establishment of an enterprise of that character. As soon as one or two active citizens take hold of the matter, we'll get the shoe factory.

"THE boom which Harrison's election gave to the formation of trusts continues unabated," says an exchange. "The latest additions to the list are the Canning Trust and a Salt Trust. There is a hopeful prospect this thing will be overtone, and the people will insist that the Democratic party shall put down the trusts and their ally, the Republican party."

ONE of the shoe factories at Portsmouth cleared \$10,000 last year. Each of the three proprietors received a salary of \$125 a month, and then at the end of the twelve months got over \$3,300 as his share of the profits. This factory has been in operation only a few years, and the business must be a profitable one. Isn't there one man in Maysville with grit and capital enough to try this industry here?

POSTMASTER GENERAL WANAMAKER states positively that he will not remove "a postmaster who is an ardent Democrat, but a capable officer, on charges of offensive partisanship." In other words, "offensive partisanship" isn't a "capital offense" with the new administration. But Mr. Wanamaker declares he will have no mercy on those Democratic postmasters who neglect their duties and run about the streets discussing politics. His course won't please the office-seeking brigade of Republicans by a long ways.

GENERAL BOYNTON, the Washington correspondent of the Cincinnati Commercial Gazette, has had to sound a note of warning to the crowd of "veterans" who are systematically preparing for a raid on the Treasury. As a result we see in that paper no more letters urging the passage of the "service pension" bill. But the last has not been heard of this pension business, and we venture the prediction that the Republican leaders will have their hands full before they are done with it. The "old soldiers" seem to be a rapacious horde and with "corporate" Tanner in charge of the Department it will not be long before it will require a hundred million dollars a year for pensions. People don't stop to contemplate what an enormous sum of money that is.

THE OROP REPORT.

A Big Corn Reserve on Account of Small Consumption.

Out of a corn crop of 1,988,000,000 bushels, the largest ever grown, though not the largest in proportion to the population of the country, there have been consumed and distributed up to the 1st inst., or within about five months from the ripening of the crop, 1,201,000,000 bushels, or 60.4 per cent. of the whole. A comparison for the last eight years shows this to be a smaller percentage than has been consumed at the same date in any year except 1886, but owing to the magnitude of the crop this relatively low percentage constituted the largest absolute quantity ever consumed within the same five months. The percentage remaining on hand on March 1 is always largest in the South, notwithstanding the fact that the period since the ripening of the crop is longest in that section. This Mr. J. A. Dodge, statistician of the Department of Agriculture, attributes to the comparatively small requirements for winter feeding, and to the fact that a larger proportion of the crop being used for work animals needs to be reserved for the period of spring plowing. The value of the crop on the basis of present average farm prices would be as follows: Merchantable corn, at 33.9 cents per bushel, \$554,484,993; unmerchantable corn, at 22.8 cents per bushel, \$79,726,118. Total value on basis of March prices \$634,211,085. Total value on basis of December prices \$677,561,560. Of the wheat crop of 1888 amounting in round numbers to 416,000,000 bushels, the quantity still in the hands of farmers is estimated at 26.9 per cent. or 111,766,530 bushels, out of which is to come the seed for the spring wheat area. A comparison covering the last eight years shows that the largest proportion ever on hand at the same date was 33 per cent. on March 1, 1885, the preceding crop having been the largest ever grown in the country; and the only occasion when the proportion was materially lower than at present was on March 1, 1882, the amount then on hand being 25.6 per cent. of the short crop of 1881.

 At Chester, Ky., March 20, 1889, ALBERT G. SPAULING, aged fifty-nine years, eleven months; born in Bedford County in Old Virginia, in 1828. He was a pioneer settler, a boatman on the Kanawha and a fisherman on the Ohio river of late years.
 At Mt. Carmel, Ky., March 14, 1889, at the home of her mother, Mrs. Alex. Hendrickson, HATTIE, only daughter of Jon H. Brown and the late Kate Brown, in the 19th year of her age.
 And thus the paper, death, has gathered another of earth's best and loveliest treasures, and down it above, to shine evermore as one of the brightest stars in our Father's Kingdom. Just bidding into young womanhood, Hattie possessed all the graces that adorn, and all the nobler characteristics of the heart and soul that rendered her a quietly favorite among all with whom she came in contact. Of a gentle, amiable disposition, she won many friends and admirers; but to those favored ones who associated with her intimately were the innate purity, grace and loveliness of her character especially revealed. From her earliest childhood a regular attendant upon divine service, and a faithful worker in the Sunday school, she gave her heart to Jesus, and in December, 1888, became a member of the M. E. Church at Mt. Carmel. In the home where she was raised with such tender care she responded cheerfully to every filial duty, repaying with loving gratitude and fond affection the kind hearts who had guided her life, from early infancy, with such tender solicitude.
 To the family and friends left to mourn this sad bereavement—the kind father and grandfather, the loving sister and affectionate brother—we would tender our sincere sympathy. Yet why weep over the death of her who is now a saint above? In company with the angels she is singing the songs of the blessed, her countenance radiant with a joy this world can never give, she is happy and at rest.
 So let us dry our tears and strew fresh flowers upon the grave of our loved one, praying that our lives may be made more sanctified, so that we can all be reunited in the world above. A FRIEND.

TOBACCO MARKET.
 Furnished by Glover & Durrett, proprietors Louisville Tobacco Warehouse.
 Sales on our market for the week just closed amount to 2,974 hhds., with receipts of 1,555 hhds., for the same period, making our net margin of 1,419 hhds. Sales of the crop of 1888, on our market up to this date, 24,849 hhds.
 The sales on our market this week have embraced more than the usual number of the better grades of New Burley leaf, and prices for the week have been higher than at any time since the beginning of the year. The New Burley crop sold during the week as high as \$18.50 per 100 lbs. and numerous sales were made ranging at prices from \$12.00 to \$15.00. The recent weather conditions have been unfavorable for handling tobacco and receipts were smaller than usual for the time of year. We find it proper to advance quotations on some grades.

If you have never used a fountain pen, try the Fairchild. You can find it at Ballenger's. A dipping pen is too slow for this age. The Fairchild is the best, and requires no shaking or doctoring.

At Vanceburg Saturday the examining trial of John Steadham, Charles Green and Ellsbury Stacy accused of the murder of a farmer named Siders near Petersville last September, resulted in their discharge. Henry Lucas and George Jesse are in custody on the same charge. The murder was shrouded in mystery and the guilty parties are still at large. Siders was killed for his money.

MR. JAMES W. PIPER, who removes this week to Lexington, tendered his resignation last night as Senior Warden of Pisgah Encampment No. 9, I. O. O. F. Patriarch Frank Bromley was elected to fill the vacancy.

THE Lexington Leader, in speaking of a musicale at Sayre Institute last Friday evening, has a very complimentary notice of a young lady of this city—the daughter of Rev. and Mrs. Jos. M. Evans. It says: "The piano playing of Miss Mattie Evans and Signor D'Anna's singing are special features which shall not be refused special mention in these columns. Miss Evans, it seems to all who hear her, improves with every musicale, until her touch is growing positively delightful, and her tone something more than that of a mere amateur."

THE New York Tribune says "the successful business men of to-day freely admit that the principle of advertising has become an essential quality in the conduct of any mercantile establishment. "He advertises all the year round," continues the Tribune. Wanamaker, the great Philadelphia merchant, owes his success largely to his advertising.

THE EVENING BULLETIN and the WEEKLY BULLETIN are the best mediums in this section for reaching the people. Merchants will find it pays to advertise with us all times, but particularly at this season of the year when everybody will soon be looking for their spring and summer wear.

THE Turf, Field and Farm. During two days last week 112 California trotters were sold at New York for \$200,175.

W. H. Wilson, of Cynthiana, sold \$20,000 worth of horses to California parties the past week.

MR. James W. Fitzgerald went to Cambridge City, Ind., a few days ago to buy the sorrel stallion, Wayne Wilson, but the animal went a little too high—\$11,000.

Flemingsburg Times-Democrat: "Some seem to think they can induce everybody else to reduce while they put out a full crop. It is easy to see the outcome of such a policy. The prospect now is that in spite of the ruinously low prices there will be at least an average crop set out if plant beds do well and weather conditions favor. This can only result in an over-production which will put the growers at the mercy of the manufacturers more completely than ever.

Hon. Alexander Campbell, of Bethany, W. Va., who was appointed by President Cleveland United States Commissioner to the exposition at Melbourne, Australia, has just returned from that country. He speaks in glowing terms of Australia and her great and flourishing stock interests. The sheep industry is immense. The number is estimated as follows: In New South Wales, 45,000,000; South Australia, 7,000,000; Victoria, 10,000,000; Tasmania, 4,000,000; Queensland, 3,000,000, and in New Zealand, 16,000,000. The wool averages forty-two pounds to the sheep, and the total production is 450,000,000 pounds. Of this amount 400,000,000 pounds was shipped to England last year.

Same to Sarah E. Burgess, 62 acres and 2 poles of land near Shack P. O.; consideration, love and affection.

Dr. John T. Fleming and wife to B. D. Owens, lots 37, 58, 83 and 84 in Chester, and also a lot at junction of Second and Beige streets, Maysville; consideration, \$1 &c.

An Ossified Man.

MR. L. H. Lang, while in Cincinnati a few days since, saw Jonathan R. Bass, the ossified man who is now on exhibition at a museum in that city. Bass' case is a most remarkable one. The Enquirer says he is attracting the general attention, not only of the public, but the leading local physicians and medical college professors. Many members of the medical profession have examined Mr. Bass, and they unite in saying that his is the most wonderful pathological case they have ever seen. Dr. F. W. Longdon, professor of descriptive and surgical anatomy and clinical medicine in the Miami Medical College, says: "It is one of the most remarkable cases on record of the condition known as arthritis deformans, or deforming ossification of joints." Dr. J. D. Buck, Dean of Pulte Medical College, and Dr. J. M. Crawford, professor of physiology in the same institution, say: "It is a case of general ankylosis of great scientific interest." The ossified man is as rigid from head to foot as a bar of iron. He has not moved a joint or muscle for thirty-two years, yet he eats, drinks, smokes, chews, jokes and claims that he is glad that he is alive. He says he would not trade places with any man living. He is literally a prisoner in his ossified frame. He has been blind for twenty years, the ossification having even involved the eyes. That he lives is a mystery.

The Railway World.

Several roads are abandoning Sunday freight trains.

The O. & M. put on "The Flyer" between Louisville and Cincinnati Sunday. It makes the run in about three hours.

At Shelbyville, Mrs. Mary Minogue got judgment for \$10,000 damages against the Louisville Southern, for injuries received in a collision last October.

Work has begun in earnest all along the line of the Richmond, Nicholasville, Irvine and Beattyville Railroad, between Richmond and Nicholasville. Men and material are arriving in Nicholasville daily, and everything bids fair for an early finish to Richmond.

Frank J. Zingerle, for the past year stenographer to J. B. Gwin, Superintendent of the United States Railway Mail Service, has accepted the position of stenographer to W. H. Fuller, General Passenger Agent of the Chesapeake and Ohio road, with headquarters in Cincinnati.

A dispatch from Wheeling says 2,000 men will soon be put to work on the Norfolk and Western Railroad between Elkhorn, McDowell County, Virginia, and the Ohio river, and that the work will be pushed right through. English capital is invested to the amount of \$6,000,000, in bonds. One thousand coke ovens have been erected in Elkhorn, and 2,000 men are at work. The line will cross the Ohio river at Ceredo, or near Ashland.

SERVIA'S FUTURE.

An Attempt Will Probably Be Made to Russianize It.

THE MASSING OF TROOPS ON THE FRONTIER CONTINUES.

It is Rumored That There May Yet Be a Natural Heir to the Throne of Austria-Hungary—Fifteen Hundred Deaths from Fever in Rio Janeiro Since January 1—Other Foreign News.

LONDON, March 26.—Private advices from Sofia state that as a result of the abdication of King Milan of Serbia and the probable ensuing of an attempt to thoroughly Russianize that kingdom, the influence of M. Zankoff, the head and front of the pro-Russian party in Bulgaria is beginning to be seriously felt. For some time past the scope of the intrigues of Russian agents in Bulgaria has been somewhat circumscribed, though they have been by no means idle. Now, however, they are becoming active and apparently taking no pains to conceal their identity or their aims.

At Timova, Vidlia and other places on the Danube the same activity among the partisans of Russia is observable and the natural inference is that a movement having for its object the overturning of the Bulgarian government and a possible Balkan war in the latter part of the spring, or early summer, is preparing. The massing of Russian troops on the frontier is not now being conducted as openly as formerly, but it is still going on nevertheless. Every few days witnesses the arrival of small detachments of infantry, cavalry and artillery and the troops are kept moving about so as not to disclose their actual number, the aggregate, however, slowly increasing.

Meanwhile Milan, the cowardly libertine who ran away from his throne at the first suspicion of danger, is in Vienna, where he divides his time in shedding crocodile tears over the tomb of the no less disreputable Rudolph and beseeching the broken-hearted, and, some say, weak-minded Emperor Francis Joseph in his effort to keep ex-Queen Natalie out of Serbia.

The story told a short time ago in Vienna to the effect that Archduchess Stephanie is in an interesting condition, creating hopes that there may yet be a natural heir to the throne of Austria-Hungary, is regarded by a great many persons with suspicion. It is true that Stephanie is keeping herself secluded and it is possible, even probable that in due time a male child may appear upon the scene, but not everybody will be induced to believe that Stephanie is its mother.

The relations between Rudolph and his wife during the latter part of the crown prince's life were not such as to encourage belief in the story of the lady's condition, but rather such as to suggest in the minds of many, who dare not say what they think, a suspicion that it was she and not her husband who fired the shots which ended the existence of the crown prince and his mistress.

Terrible Ravages of Fever in Rio Janeiro.
RIO JANEIRO, March 26.—The official returns of the deaths from yellow fever since the commencement of the year sum up 1,500 victims from that form of fever alone, and the mortality from other types is unusually great. The inhabitants of Rio are dying at the rate of 2,000 a month in a city of 300,000, largely depleted by the flight of every one to take refuge in the Highland sanatoria.

Peruvians Lose a Big Bridge.
LIMA, March 26.—The Verrugas bridge, the most famous of the bridges on the Oroya railway, has been swept away by a flood. The bridge was 108 feet high, and its original cost was 400,000 soles. The destruction of the bridge has rendered transportation from that part of the country almost impossible. It will probably be a long time before the bridge is rebuilt.

Tory Force Dwindling.
LONDON, March 26.—Much indignation is expressed in Liberal circles at the abstention of nearly twenty Liberal members at the division on Friday against the attorney general. This preference of professional solidarity to political duty creates a very unpleasant feeling, and will serve to strengthen the dislike in constituencies to legal candidates.

Reception to the Pilgrims.
ROME, March 26.—Arthur Moore gave a reception to the American pilgrims Saturday. Among those present were Cardinal Macchi, Archbishop Kirby, Archbishop Brandini, Bishop Radenmacher, Bishop McQuaid, Mgr. O'Connell, Mgr. Gies, Mgr. Campbell and many members of the papal household.

Love's Sacrifice.
BERLIN, March 26.—Late letters from New Hampshire received by Helen Buttrick, the American girl who drowned herself in the river Spree last week, determine that the cause of her desperate act was disappointment in love. Her note book contains evidences of her despair.

Russian Budget.
ST. PETERSBURG, March 26.—The official statement relating to the budget for 1888 shows a surplus of at least 7,000,000 roubles, without including the proceeds of the November loan and the residue—25,000,000 roubles—of the internal loan of 1887.

Emin in Good Health.
CAMO, March 26.—Mahomed Beraivi, who brought the news of the victory of Emin Pasha over the dervishes, says it was reported that Emin was in good health, and that all his people and some European travelers were with him in Bahrgaz.

Foreign Notes.
The king of Holland is unconscious.
Mr. Gladstone left London for Scotland Sunday night.
A Portuguese anti-slavery society has been formed, with King Luis as honorary president.

Bishop Wigger is sick, and has been obliged to leave the pilgrimage. The pilgrims left for Naples Monday morning.

The new relapse of John Bright is very serious. His family never expected him to live and his death now is feared to be a matter of weeks or even days.

The Alsace-Lorraine society held a meeting in Paris on Saturday to decide whether to give a banquet in honor of M. Antoine. The president protested that M. Antoine sought political ends, and no longer repre-

sented Alsace-Lorraine. A great row followed. Finally the society decided not to give a banquet.

In a duel with swords Deputy Cavalotti slightly wounded Signor Corveto, under secretary of the Italian war department. The trouble grew out of a personal dispute.

While dining in the cafe during Sunday, Gen. Boulanger was suddenly seized with a fainting fit, and had to be conveyed to his home. No serious results are reported.

The London Chronicle says there have lately been sixty sudden deaths in a hospital at Florence, all preceded by intestinal disturbance. Some newspapers attribute the deaths to bad food, others to cholera.

The Cologne Gazette, commenting on the Samoan question, says that owing to the attitude of America it is natural that Germany should seek a full agreement with England before the Samoan conference meets.

The Liberal victory in the Gorton division of Lancashire, by increasing majority, is very satisfactory, as the Tories hoped to win on the stimulus given to the local iron trade by the increased navy expenditures. Of four elections mentioned in my previous telegrams three have now gone Liberal. Rochester remains to be decided. Liberals will carry that.

There is a fresh vacancy now in the Enfield division of Middlesex. The Tories held this by 2,000 majority. The election will occur next Saturday. Liberals will not win but will greatly reduce the Tory majority. Seventy-two elections will then have been held since 1886, in which the Liberals have gained ten seats and the Tories one. At this rate the existing Tory majority would be just wiped out if a general election comes.

A WAR OF FACTIONS.

Four Men Reported Killed in Knox County.

KY.—More Trouble Expected.
PINEVILLE, Ky., March 26.—This region, which has been brought into unpleasant notoriety for years by the bloody feuds that have raged in Knox, Harlan and Bell counties, Ky., and in Claiborne county, Tenn., bids fair to be the seat of a mountain war.

Last week Gen. Sowder, the leader of one faction and wholesale murderer, was captured and confined in the Pineville jail with a strong guard. Friday he was taken to Staunton, Ky., for safekeeping.

The two factions are again at war. Sowder's friends have captured Jack Turner, of the enemy's clan, and delivered him at the jail.

At Barbourville, another old feud, remotely connected with the Sowders-Turner trouble is stirred up. Over 1,000 men are armed and on the war path in the mountains. Four men were killed Saturday night near Salt Trace, and half a dozen wounded.

A fort is being erected on Stinking creek. The sheriffs of three counties are arranging a combined campaign against the factions, who swear they will not be taken. Governor Taylor, of Tennessee, will be asked for a regiment of militia. Bloody times are anticipated.

An Entire Garrison Deserted.

NEW YORK, March 26.—A letter to the World from Hamilton, Bermuda, under date of March 14, states that the entire garrison—officers and men—of the English fort Cunningham deserted on the morning of the 14th inst., and that no trace of the deserters can be found. It is thought that they left on board the Dutch ship Gebroeder Smitt, which sailed for New York early in the morning of the 14th.

Voodoo Doctor Whipped.

PRINCESSE ANNE, Md., March 26.—Saturday five young men went to the house of a voodoo doctor named Warden and gave him a terrible thrashing with whips for having assaulted a young colored girl whom he was attending professionally. The young fellows peeled the clothing from the negro's back and left him with a score of ugly welts on his skin. Warden swore out warrants for his assailants' arrest and they were brought before a magistrate. The magistrate let the young men go with a nominal fine.

Surprised Canadians.

OTTAWA, Ont., March 26.—A sensation has been created here by the issue of President Harrison's proclamation, declaring Behring sea a closed sea. The action of the American government proved a complete surprise to the members of the government, who decline to be interviewed. It is stated here that the Cleveland administration and the British government had been negotiating for two years past in regard to the claim for compensation for the seizure of three British sealing vessels in the Behring sea.

Lucy Parsons' Banting Speech.

CHICAGO, March 26.—Anarchist Lucy Parsons was the chief speaker Saturday night in Twelfth-street Turner hall, at a celebration of the eighteenth anniversary of the Paris commune. About 2,500 people were present, and they exchanged significant glances when Mrs. Parsons shouted: "We want a revolution—whether peaceful or bloody makes no difference—a revolution must come." She declared she had but one object in life—to make rebels of them all.

Minister Warned by White Caps.

WEST SUPERIOR, Wis., March 26.—The Rev. R. C. Meyers, who recently published a letter in a local paper attacking the character of the Rev. Houser, has received a note signed by White Caps warning him to leave town in a given time or suffer the penalty of being tarred and feathered. He has, however, signified his intention of remaining, and lively times are looked for.

A Hangover.

CHEBOYGAN, Mich., March 26.—The straits opened up above here during a high westerly wind Saturday night, and boats can now get through by taking the north passage on entering Lake Huron, bound up. This is an opening six weeks earlier than last winter.

Entirely Too Many for One Day.

NEW YORK, March 26.—Four steamships landed 1,950 immigrants at Castle Garden Sunday. The Etruria, from Liverpool, brought 746; La Champagne, from Havre, 595; City of Chicago, from Liverpool, 591, and Polynesia, from Hamburg, 284.

Finest \$300 for Selling Cider.

WATERLOO, Iowa, March 26.—Charles W. Schmidt, of Cedar Falls, was Saturday fined \$300 for selling cider. He pleaded guilty on six counts. A number of boys got drunk in his place and he had them arrested. In retaliation they complained on him.

Alleged White Cap Acquitted.

MILLTOWN, Ind., March 26.—Joseph Wells, the first of the alleged White Caps tried for whipping John Nuss on the night of July 2, 1887, was acquitted by a jury Sunday morning.

IT MADE MOTHER STRONG

"My mother has been using PAIN'S CELERY Compound for nervous prostration, accompanied by melancholia, etc., and it has done her a world of good. It is the only medicine that strengthens the nerves."

G. H. BEERS, Orbisonia, Pa.

"I am now 64 years old and have been afflicted in several ways—could not sleep, had no appetite, no courage, low spirits. I commenced using PAIN'S Celery Compound, and felt relief from the third day after using it. I now have a good appetite and can sleep well. My spirits and courage are almost like those of a young man."

S. C. KIRKMAN, D. D., Gonzales, La.

Paine's Celery Compound

Strengthens and builds up the old, and cures their infirmities. Rheumatism, indigestion and nervousness yield quickly to the curative power of Paine's Celery Compound.

A Perfect Tonic and Invigorator, it GIVES NEW LIFE.

"I am now 65 years old and have tried several remedies, but none had any effect until I used Paine's Celery Compound. I feel entirely different for the short time I have used it. I can walk nearly straight, sleep sound and well, and feel as though there was new life and energy coming into my whole system."

H. MYLUS, Cleveland, Tenn.

Paine's Celery Compound is of unequalled value to women. It strengthens the nerves, regulates the kidneys, and has wonderful power in curing the painful diseases with which women so often silently suffer.
